

PROFESSIONAL SERVICES

YOUR PARTNER FOR BUSINESS MOBILITY SUCCESS

Business Mobility is critical to the success of your organization, and management of your mobile devices and applications is a vital component of your company's mobility strategy. However, you may not have skills and expertise in-house to implement business mobility quickly and correctly. You need help to fast-track and optimize the deployment of your enterprise mobility management (EMM) solution, and SOTI Professional Services can help make this happen.

SOTI KNOWS YOUR BUSINESS

SOTI's Enterprise Mobility Consultants have years of experience deploying SOTI MobiControl for all industry verticals and companies of all sizes.

SOTI KNOWS MOBILE TECHNOLOGY

Strong relationships with over 140 device manufacturers (OEMs) and an innovative device certification program gives SOTI unparalleled insight into mobile hardware, APIs and operating systems.

SOTI KNOWS BUSINESS CRITICAL MOBILITY

SOTI is the acknowledged industry leader for securing and managing business critical mobility. Enterprise Mobility Consultants know all the tricks of the trade for delivering reliable mobility management, quickly and easily.

SOTI PROFESSIONAL SERVICES OFFERINGS

	RAPID IMPLEMENTATION SERVICE	<p>Accelerate your SOTI MobiControl deployment</p> <p>Get your on-premise SOTI MobiControl instance up and running in days, not weeks or months.</p>
	MIGRATION SERVICE	<p>Migrate your SOTI MobiControl instance quickly</p> <p>Migration services can help migrate your entire EMM solution or just the underlying SQL server database, quickly, and with minimal disruption to your business.</p>
	VERSION UPGRADE	<p>Upgrade your SOTI MobiControl version</p> <p>No one knows SOTI MobiControl as well as our Enterprise Mobility Consultants. They have experience updating the product from all previous versions and can complete an on-premise upgrade with minimal disruption to your operations.</p>
	TEST SERVER SETUP	<p>Simplify the rollout of SOTI MobiControl</p> <p>A SOTI MobiControl test environment can make testing new hardware and software easy, with no disruption to your production environment. SOTI's Enterprise Mobility Consultant will plan, deploy and configure a test server, on-premise or in the cloud.</p>
	ADVANCED CERTIFICATE INTEGRATION	<p>Secure your company's data</p> <p>Certificates are required for authentication and encryption. SOTI MobiControl Advanced Certificate Integration provisions certificates to mobile devices so your remote workers can access internal company resources such as email and content, safely and securely.</p>
	CUSTOMIZED HOURLY SERVICE	<p>Deliver custom consulting expertise</p> <p>Need more help? SOTI wants to ensure that you are getting the most out of your business mobility. SOTI's Enterprise Mobility Consultant expertise is available for customized project-based implementations of SOTI MobiControl not covered by other Professional Services offerings.</p>

SOTI offers a wide range of professional services to guide you through each step of your SOTI MobiControl deployment – from installation, configuration and training to advanced consulting services.
