

SOTI CONNECT

TAKE CONTROL OF YOUR
IoT-ENABLED PRINTERS

“Things” are getting smarter and more connected. Printers, wearables, equipment, vehicles and much more are now providing organizations invaluable data and capabilities that were previously difficult, if not impossible to get. Enterprises are increasingly relying on IoT to improve their operational efficiency, safety and customer experience. However, maintenance costs and downtime of IoT devices can turn it from a revenue driver into a cost centre. SOTI’s IoT solution is built for the enterprise and provides complete lifecycle management of IoT devices within an organization, lowering the total cost of ownership (TCO) of their IoT devices and improving the return on investment (ROI) of their IoT initiatives.

PRINTER MANAGEMENT MADE EASY

SOTI Connect is an IoT-management solution built for business that provides complete lifecycle management of industrial and mobile printers (AIDC devices) within an organization. Its highly flexible, data-driven architecture means that new printers can be quickly supported and managed, reducing the time-to-market for IoT initiatives. Deploy your printer solutions quickly, with total visibility, and increase uptime of AIDC devices with SOTI Connect.

WHAT SOTI CONNECT CAN DO FOR YOUR BUSINESS MANAGE YOUR BUSINESS-CRITICAL INDUSTRIAL AND MOBILE PRINTERS

SOTI Connect addresses key printer management challenges with remote support features that reduce device downtime and workflow disruptions.

- Remote support features provide instant access to printer endpoints and allow organizations to immediately troubleshoot and resolves issues
- A data-driven architecture introduces support for new printers without the need for software updates or written code
- Automation rules automatically issue alerts and actions when pre-defined conditions are met on the device, greatly reducing downtime of AIDC devices
