SOTI

SOTI CONNECT FOR ZEBRA PRINTERS

WORLD-CLASS IoT MANAGEMENT OF A WORLD-CLASS PRINTER SOLUTION

SOTI Connect provides organizations with anytime, anywhere management of their connected printers from a single screen with an incredibly easy-to-use interface. Zebra is a leading manufacturer of industrial, desktop and mobile printers used by numerous industries, including retail, healthcare, transportation and logistics (T&L), and field services.

Together they give you the best of both worlds: flexible, expandable Internet of Things (IoT) support and management of the high quality printers you count on to handle your business-critical operations and workflows.

FAST DEPLOYMENT

Use SOTI Connect to setup your Zebra printers to meet your business needs in minutes, not hours.

EASY MANAGEMENT

Get total visibility into the health and location of your Zebra printers and provide remote support to minimize downtime.

POWERFUL SECURITY

Remotely deploy certificates and update the firmware of your Zebra printers to protect against costly data breaches.

SOTI Connect gives you total control over your Zebra printer deployments. Collect, access and proactively act on critical printer data such as temperature, battery usage, memory level, print speed and more.

MANAGE ANY TYPE OF ZEBRA PRINTER

PRINT ENGINES

DESKTOP PRINTERS

MOBILE PRINTERS

INDUSTRIAL PRINTERS

MAXIMIZE THE ROI OF YOUR ZEBRA INVESTMENTS

Harness the power of SOTI Connect to keep your business-critical Zebra printers operational, whether they are across town or around the world.

VIEW DATA

- Understand the usage patterns and health of your Zebra printers.

- Receive visual alerts on media and ribbon levels, connectivity status and other parameters.

- Group printers by function, department, manufacturer, location or any way that suits the needs of your business.

- Access high quality visual representations of your Zebra printers and view device specific details and actions.

TAKE ACTION

- Remote access makes it easy to manage and update devices from anywhere.

- Quickly identify problematic devices and automate remediation actions to resolve the issue.

- Make over-the-air (OTA) updates, push firmware upgrades and change printer settings.

- Configure printer-specific settings and initiate actions such as printing test pages.
